Subject: Re: ICO

Strategy makes sense to me, thanks for the update John.

Dear [REDACTED]

The WSJ article is not correct.

We decided for regulatory reasons that we will never do any form of direct public offering,

We plan to do one more private round most likely in September once Blockchain trails have commenced.

The public will be able to buy grams once network is working and wallets distributed but on a secondary basis not from Telegram directly.

Kind regards

John
